THE PROPERTY

A perfect family house ideal for one or even multi generational living set within the established and highly sought-after residential location of Loughton. Extending to approximately 348sq m (3,748sq ft), the property combines the scale and maturity of a traditional family home with the specification, efficiency and design expected of a contemporary luxury development.

The house has undergone a meticulous transformation including a double-storey side extension, complete renewal of plumbing and electrical systems and the upgrading of every interior space to an exceptional standard. The result is a refined and highly versatile home with an EPC B and C rating, reflecting the significant investment in energy efficiency and thermal performances.

The heart of the home is a bespoke open-plan kitchen and living space, beautifully appointed with NEFF integrated appliances, dual dishwashers and an Elica Skydome ceiling extractor, creating a striking focal point. The kitchen flows seamlessly into a dramatic dining/family room area with a vaulted ceiling, where skylights and expansive glazing flood the space with natural light. Sliding doors open directly onto the garden, creating an effortless connection between indoor and outdoor living, ideal for both everyday family life and larger-scale entertaining.

Accommodation is arranged across two floors and offers exceptional flexibility, comprising seven double bedrooms, or six bedrooms with a dedicated gym or home office. Three bedrooms benefit from ensuite bathrooms, complemented by three further bathrooms and a ground floor cloakroom, making the house equally suited to multi-generational living or hosting guests.

OUTSIDE

Technology and comfort have been carefully integrated throughout the home. Underfloor heating across the majority of the ground floor, Hive smart heating, Cat6 data cabling, automated Alexa-controlled blinds and air conditioning in three bedrooms ensure a home that is both efficient and well suited to modern living. Ultra-fast fibre broadband up to 1Gbps supports seamless remote working and media connectivity.

Mature gardens surround the house, providing privacy and a sense of space rarely found in such a well-connected location. The garden incorporates lawns, multiple seating terraces and outdoor entertaining areas.

To the front, a driveway provides off-street parking for up to four vehicles and includes a fast electric vehicle charging point. An 80sq m flat roof area prepared for future solar installation offers significant potential for further energy independence.

Properties offering this combination of plot size, accommodation and specification are increasingly rare within Milton Keynes, particularly within an established residential setting close to excellent transport connections. This exceptional home presents a unique opportunity to acquire a beautifully refurbished family residence of considerable scale and quality.
