Introduction

Our Comments

** NO ONWARD CHAIN **

Situated in the sought after area of Birch Hill, this well presented top floor apartment offers spacious and practical accommodation, ideal for first time buyers, investors, or those looking to downsize. Benefitting from a long lease and a garage located in a nearby block, the property combines comfort, convenience, and excellent local connectivity. The accommodation comprises a generous living/dining room measuring over 16ft, providing ample space for both relaxing and entertaining. The separate fitted kitchen is well arranged with a good range of storage and worktop space. There are two well proportioned bedrooms, with the main bedroom further benefitting from a useful wardrobe area. A family bathroom and separate WC add to the practicality of the layout. The property is ideally positioned for easy access to a range of local amenities, including shops, supermarkets, schools, and leisure facilities, while excellent transport links nearby provide convenient access to surrounding towns, business parks, and commuter routes. Further benefits include ample storage, a secure top floor position, security entrance to the communal area, bike storage, and garage parking in a nearby block. Early viewing is highly recommended.

Coal Mining

This map displays nearby coal mine entrances and their classifications.

Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Rail Noise

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

5		75.0+ dB	
4		70.0-74.9 dB	
3		65.0-69.9 dB	
2		60.0-64.9 dB	
1		55.0-59.9 dB

Radon Gas

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m3).

Duncan Yeardley

About Us

Duncan Yeardley

From a team of just two, the company has grown significantly in recent years to boast a superb team of local property experts. And, we're not stopping there. In 2021 we expanded and now have an office in Ascot to help even more people with their home moves. We can strongly say our foundation for being local experts is solid. We're local residents who play an active part in the community and our children go to local schools. And we all love working at Duncan Yeardley! Several long-standing team members have been part of our story for many years and we always encourage progression, development and training so our people are the best they can be.

With our great culture and work ethic, we always put our customers at the heart of what we do. We're lucky to have people who are genuinely passionate about property, and we're often complimented for going the extra mile. We hope to do that for you too!
