Coal Mining

DY.

This map displays nearby coal mine entrances and their classifications.

Mine Entry

- ✗ Adit
- ✗ Gutter Pit
- ✗ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

4		70.0-74.9 dB	
3		65.0-69.9 dB	
2		60.0-64.9 dB

Testimonial 1

Duncan Yeardley was amazing! We had chosen them due to the MANY recommendations on Facebook from other happy sellers. We sold within a week, so we were extremely pleased about that. A HUGE thank you goes to Gina who managed the expectations of our buyers, ensuring we didn't lose them and everyone was kept in the loop. She managed our sale so perfectly and I cannot fault her or Duncan Yeardley. I would recommend them to anyone that was selling.

Testimonial 2

23 years ago I purchased my current house through Duncan Yeardley. They were outstanding back then & have been outstanding with the sale of the property, which I hand over this Friday. Things don't always go to plan in life but whenever I asked a question I always received answers or advice very quickly. Everyone I spoke to was very knowledgeable & were genuinely very keen to help. I can't fault them at all & would recommend them without any hesitation.

Testimonial 3
