The Engineer visited the flat and marked the boiler as dangerous as there seems to be a leakage from the top pipe.

He has now turned off the boiler resulting in no hot water in the flat.

Please inform the landlady ASAP and get it replaced by tomorrow.

Look forward to hearing from you soon.

Regards,
Ankan

Please let me know the Landlady's response and when this will get fixed?

Regards,
Ankan

Please get this fixed today. It is very difficult for us to manage without hot water especially with the small baby.

Ankan
